Other comprehensive income	(15.80)	2.11
Total comprehensive loss for the year	(4,540.19)	(2,007.91)

2. STATE OF COMPANY'S AFFAIRS, OPERATIONS REVIEW AND OUTLOOK:

Trust Mutual Fund (the Fund) obtained SEBI registration in October 2019. It is sponsored by Trust Investment Advisors Private Limited. TRUST AMC Trustee Private Limited acts as the Trustee to the Fund. The Company has been appointed as the Asset Management Company of the Fund by the Trustees vide Investment Management Agreement (IMA) executed between the Trustee and the AMC.

TRUST Mutual Fund has successfully completed over four years since the launch of its first scheme. Over this period, the AMC has introduced a range of debt schemes, steadily building a strong and diversified fixed income product portfolio. During the FY 2024-25, the AMC expanded its offerings into equities with the successful launch of two equity-oriented schemes, marking a significant milestone in its growth journey.

As of March 31, 2025, the Asset Management Company (AMC) manages a total of 9 mutual fund schemes, comprising 2 equity-oriented funds, namely the TRUSTMF Flexi Cap Fund and TRUSTMF Small Cap Fund and 7 debt-oriented funds—including 6 open-ended debt schemes and 1 close-ended debt scheme. The AMC manages a total Assets Under Management (AUM) of ₹ 2726.76 crore and services a folio count of 67,623. It maintains a presence across 11 locations and is supported by a network of 13007 empanelled distributors.

The AMC has successfully attracted investors through its differentiated and structured investment approach, positioning itself as a trusted name in the mutual fund industry. With a long-term vision to offer a comprehensive suite of products across various asset classes, the AMC is actively engaging with both potential investors directly and distributors across markets to expand its reach and cater to a broader client base.

MARKET UPDATE & OUTLOOK:

In the FY 2024–25, the Indian economy navigated a dynamic and evolving macroeconomic environment, achieving robust real GDP growth of approximately 6.5%. This growth was supported by a sharp rise in government capital expenditure, strong infrastructure momentum, and resilient domestic demand. The successful conduct of the general elections brought political stability and policy continuity, reinforcing investor confidence and long-term economic planning.

Despite a challenging global backdrop marked by a strengthening US dollar, rising tariffs, and geopolitical tensions, India demonstrated notable resilience. These external factors triggered heightened market volatility and a temporary correction in equity markets up to February 2025, primarily driven by risk-off sentiment and sustained foreign institutional investor (FII) outflows. However, a weakening dollar from February 2025 onwards reversed the trend, leading to a rebound in FII inflows and a recovery in capital markets.

The Union Budget 2024 underscored the government's continued emphasis on inclusive growth, with targeted measures for women, youth, and farmers, alongside infrastructure development and fiscal prudence. These priorities aligned with India's long-term vision of building a confident and progressive "New India." Key sectors - manufacturing, services, and infrastructure, registered strong momentum, underpinned by policy support and sustained investments. On the external front, India remained well-positioned, with healthy foreign exchange reserves, a stable current account, and increasing foreign direct investment (FDI) driven by a liberalized investment regime.

Inflation eased significantly during the year, with the Consumer Price Index (CPI) dropping to 2.82% in May 2025 - its lowest level since February 2019 providing relief to consumers and improving overall sentiment. The Reserve Bank of India's liquidity measures further supported credit availability and market stability.

India's fiscal position continued to improve, with a manageable fiscal deficit and improved revenue performance. Strengthening macroeconomic indicators- including record-high foreign exchange reserves, buoyant domestic demand, and renewed FII interest- reflect global confidence in India's long-term growth potential.

India's growth outlook remains anchored in robust economic fundamentals, prudent fiscal management, and policy stability, reinforcing its role as a key engine of global economic growth.

Mutual Fund Industry Update

FY 2024–25 was a landmark year for the Indian mutual fund industry, marked by impressive growth and key structural reforms. As of March 2025, the industry's Assets Under Management (AUM) stood at ₹65.74 lakh crore, up from ₹53.40 lakh crore in March 2024, registering a robust 23% year-on-year growth. The total folio count grew by 32% over the same period, reflecting expanding retail participation.

Systematic Investment Plans (SIPs) continued to gain traction, with SIP AUM reaching ₹13.35 lakh crore-accounting for nearly 20% of the total industry AUM. This underscores a growing investor preference for disciplined, long-term investing.

Several progressive regulatory developments, spearheaded by SEBI, further transformed the industry landscape. The introduction of the Mutual Fund Lite (MF Lite) framework simplified compliance and operational requirements for AMCs offering low-cost passive products, especially those aimed at underserved or emerging markets.

Another significant innovation was the creation of the Specialized Investment Fund (SIF) category. Designed to offer greater flexibility and product innovation, SIFs enable AMCs to provide customized investment strategies with fewer entry barriers compared to traditional PMS (Portfolio Management Services) or AIFs (Alternative Investment Funds). This move has broadened the industry's ability to cater to niche investor segments while maintaining cost efficiency and accessibility.

Together, these developments underscore a dynamic shift toward innovation, inclusion, and investor-centric growth in the mutual fund industry. With strong participation, diversified offerings, and proactive regulatory support, the industry is poised to play a pivotal role in India's financial ecosystem in the years ahead.

7. STATEMENT CONCERNING DEVELOPMENT AND IMPLEMENTATION OF RISK MANAGEMENT POLICY OF THE COMPANY:

The Company understands that investment management, being a fiduciary responsibility, risk management would be of utmost importance and is committed to managing it in a proactive and efficient manner. SEBI, vide its Chapter IV of Master Circular for Mutual Funds dated June 27, 2024, prescribed a Risk Management Framework (RMF) that elaborates various AMC and scheme specific risks and outlines the governance/mitigation structure, risk measurement and risk reporting framework.

For implementation of the said Framework, the AMC has adopted various initiatives including reframing the risk management policies, constitution of separate RMCs, identification of CXO level Officers and defining their roles and responsibilities and KRA, defining of the Risk Appetite statement, adoption of Delegation of Power Framework and Risk Metrics, etc.

The outcomes of the risk management function are subject to periodic review by the management, RMCs, Internal auditors and the Board of Directors of AMC and Board of Trustee Company.

8. DETAILS OF POLICY DEVELOPED AND IMPLEMENTED BY THE COMPANY ON ITS CORPORATE SOCIAL RESPONSIBILITY INITIATIVES:

The provisions of Section 135 of the Companies Act, 2013 read with the Companies (Corporate Social Responsibility Policy) Rules, 2014 does not apply to the Company, and hence the Company has not initiated any activities related to Corporate Social Responsibility.

However, Trust Group through its various companies does have a policy to “give back to the society”. In line with this approach, “Trust Group” has undertaken social activities promoting education, hygiene, health care, child development, etc.

9. PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS MADE UNDER SECTION 186 OF THE COMPANIES ACT, 2013:

Independent Auditor's Report

To the Members of Trust Asset Management Private Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of **Trust Asset Management Private Limited** ('the Company'), which comprise the Balance Sheet as at **31 March 2025**, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its loss (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the Financial Statements and Auditor's Report thereon

4. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

The Director's Report is not made available to us at the date of this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

5. The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
6. In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
7. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

9. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place adequate internal financial controls with reference to financial statements and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

11. Based on our audit, we report that the provisions of section 197 read with Schedule V to the Act are not applicable to the Company since the Company is not a public company as defined under section 2(71) of the Act. Accordingly, reporting under section 197(16) is not applicable.
12. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
13. Further to our comments in Annexure I, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying financial statements;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The financial statements dealt with by this report are in agreement with the books of account;

- d) In our opinion, the aforesaid financial statements comply with Ind AS specified under section 133 of the Act;
- e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025 from being appointed as a director in terms of section 164(2) of the Act;
- f) In our opinion and to the best of our information and according to the explanations given to us, the provisions of section 143(3)(i) for reporting on the adequacy of internal financial controls with reference to financial statements and the operating effectiveness of such controls of the Company, are not applicable; and
- g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company does not have any pending litigations which would impact its financial position as at 31 March 2025;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2025;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2025;
 - iv.
 - a. The management has represented that, to the best of its knowledge and belief, as disclosed in note 41(i) to the accompanying financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Company to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
 - b. The management has represented that, to the best of its knowledge and belief, as disclosed in note 41(ii) to the accompanying financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c. Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.

- v. The Company has not declared or paid any dividend during the year ended 31 March 2025.
- vi. As stated in note 43 to the financial statements and based on our examination which included test checks, the Company, in respect of financial year commencing on or after 1 April 2024, has used an accounting software for maintaining its books of account which have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

Furthermore, the audit trail has been preserved by the Company as per the statutory requirements for record retention, where such feature is enabled.

Annexure I referred to in paragraph 12 of the Independent Auditor's Report of even date to the members of Trust Asset Management Private Limited on the financial statements for the year ended 31 March 2025

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment and relevant details of right-of-use assets under which the assets are physically verified each year, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets.
- (c) The Company does not own any immovable property (including investment properties) (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee). Accordingly, reporting under clause 3(i)(c) of the Order is not applicable to the Company.
- (d) The Company has not revalued its property, plant and equipment including right-of-use assets or intangible assets during the year.
- (e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.
- (ii) (a) The Company does not hold any inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable to the Company.

(b) The Company has not been sanctioned working capital limits by banks or financial institutions on the basis of security of current assets at any point of time during the year. Accordingly, reporting under clause 3(ii)(b) of the Order is not applicable to the Company.
- (iii)
 - (a) The Company has not provided any loans or provided any advances in the nature of loans, or guarantee, or security to any other entity during the year. Accordingly, reporting under clauses 3(iii)(a) of the Order is not applicable to the Company.
 - (b) The Company has not provided any guarantee or given any security or granted any loans or advances in the nature of loans during the year. However, the Company has made investment in 1 entity amounting to Rs. 400.57 lakhs (year-end balance Rs. Nil) and in our opinion, and according to the information and explanations given to us, such investments made are, prima facie, not prejudicial to the interest of the Company.
 - (c) The Company does not have any outstanding loans and advances in the nature of loans at the beginning of the current year nor has granted any loans or advances in the nature of loans during the year. Accordingly, reporting under clauses 3(iii)(c), 3(iii)(d), 3(iii)(e) and 3(iii)(f) of the Order is not applicable to the Company.

- (iv) The Company has not entered into any transaction covered under sections 185 and 186 of the Act. Accordingly, reporting under clause 3(iv) of the Order is not applicable to the Company.
- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there are no amounts which have been deemed to be deposits within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of section 148 of the Act, in respect of Company's business activities. Accordingly, reporting under clause 3(vi) of the Order is not applicable.
- (vii)(a) In our opinion and according to the information and explanations given to us, undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited with the appropriate authorities by the Company, though there have been slight delays in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, we report that there are no statutory dues referred to in subclause (a) above that have not been deposited with the appropriate authorities on account of any dispute.
- (viii) According to the information and explanations given to us, we report that no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been previously recorded in the books of accounts.
- (ix) According to the information and explanations given to us, we report that the Company does not have any loans or other borrowings from any lender. Accordingly, reporting under clause 3(ix) of the Order is not applicable to the Company.
- (x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no fraud on the Company has been noticed or reported during the period covered by our audit.
- (b) According to the information and explanations given to us including the representation made to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.
- (c) According to the information and explanations given to us including the representation made to us by the management of the Company, there are no whistle-blower complaints received by the Company during the year.

- (xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- (xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company, with the related parties are in compliance with section 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act. Further, according to the information and explanations given to us, the Company is not required to constitute an audit committee under section 177 of the Act.
- (xiv)
 - (a) According to the information and explanations given to us, the Company is not required to have an internal audit system as per the provisions of section 138 of the Act. However, the Company has an internal audit system which, in our opinion, is commensurate with the size and nature of its business.
 - (b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.
- (xv) According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and accordingly, reporting under clause 3(xv) of the Order with respect to compliance with the provisions of section 192 of the Act are not applicable to the Company.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under clauses 3(xvi)(a), (b) and (c) of the Order are not applicable to the Company.
 - (d) Based on the information and explanations given to us and as represented by the management of the Company, the Group (as defined in Core Investment Companies (Reserve Bank) Directions, 2016) does not have any CIC.
- (xvii) The Company has incurred cash losses in the current financial year and in the immediately preceding financial years amounting to Rs. 3,941.57 lakhs and Rs. 1,866.16 lakhs respectively
- (xviii) There has been no resignation of the statutory auditors during the year. Accordingly, reporting under clause 3(xviii) of the Order is not applicable to the Company.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information in the financial statements, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

- (xx) According to the information and explanations given to us, the Company does not meet the criteria as specified under sub-section (1) of section 135 of the Act read with the Companies (Corporate Social Responsibility Policy) Rules, 2014 and according, reporting under clause 3(xx) of the Order is not applicable to the Company.
- (xxi) The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of standalone financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

1. Corporate Information

Trust Asset Management Private Limited [hereinafter referred to as the 'Company'] is a private company limited by shares and incorporated on 11 December 2017 under the provisions of Companies Act, 2013. The Company is domiciled in India. The registered office of the Company is situated at 101, 1st Floor, Naman Corporate Link Centre, G-Block, Bandra Kurla Complex, Bandra (E), Mumbai – 400 051.

The Company acts as an investment manager to the Trust Mutual Fund. The Company is domiciled in India and is registered with The Securities and Exchange Board of India ("SEBI") as an Asset Management Company under the SEBI Act, 1992.

These financial statements contain financial information of the Company and were authorized for issue by Board of Directors on 26 July 2025.

2. Basis of Preparation of Financial Statements

a. Compliance with Ind AS

These financial statements of the Company comply in all material aspects and have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act, as amended from time to time.

These accounting policies have been applied consistently over all the periods presented in these financial statements.

b. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial instruments are measured at fair value.
- Investments - measured at fair value through profit and loss (FVTPL).
- Defined benefit plans-measured at Fair value.
- Employee Stock Option scheme measured at fair value on grant date.

c. Preparation of Financial Statements

The Company is covered in the definition of Non-Banking Financial Company as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 11 October 2018, the Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity.

A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in note 33.

d. Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires management to make estimates, judgments, and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities (including contingent liabilities) and disclosures as of the date of financial statements and the reported amounts of revenue and expenses for the reporting period. Actual results could differ from these estimates. Accounting estimates and underlying assumptions are reviewed on an ongoing basis and could change from period to period. Appropriate changes in estimates are recognized in the period in which the Company becomes aware of the changes in circumstances surrounding the estimates. Any revisions to accounting estimates are recognized prospectively in the period in which the estimate is revised and future periods.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

Assumptions and estimation uncertainties

Information about critical judgements, assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment is included in the following notes: -

Note 3(G), 3(H), 10 and 11– estimates of useful lives and residual value of Property, Plant and Equipment, and other intangible assets.

Note 26 – recognition and measurement of provisions and contingencies; key assumptions about the likelihood and magnitude of an outflow of resources, if any;

Note 29 – measurement of defined benefit obligations: key actuarial assumptions;

Note 30 – recognition of deferred tax assets;

Note 32 – Financial instruments – measurement of fair values and impairment of financial assets;

Note 35 – Estimation of fair value in respect of employee stock option plan.

e. Measurement of Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market is accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

Changes in level 2 and 3 fair values are analyzed at the end of each reporting period.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred (if any).

f. Rounding off

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirements.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

3. Material Accounting Policy information

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless stated otherwise.

A. Revenue Recognition

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognized when the company satisfies a performance obligation by transferring a promised good or service to a customer based on the 5-step approach as set out in Ind AS 115. When a performance obligation is satisfied, the company recognizes as revenue the amount of the transaction price (excluding estimated of variable consideration) that is allocated to that performance obligation.

(a) Management Fees

Management Fees (net of GST) from mutual fund schemes are recognized on an accrual basis in accordance with the investment management agreement and provision of SEBI (Mutual Fund) Regulations, 1996. The Company receives investment management fees from the mutual fund which is charged as a percentage of the Assets Under Management (AUM) and is recognized on accrual basis. Revenue from management fees is recognized as and when services are performed over time as the customer simultaneously receives and consumes the benefits provided by the Company.

(b) Interest/ Dividend income

Interest income or expense is recognised using the effective interest rate method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the carrying amount of the asset (when the asset is not credit impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Interest income / expense on financial instruments at FVTPL is not included in fair value changes but presented separately.

(c) Net gain/ (loss) on fair value changes

The realised gains / losses from financial instruments at FVTPL represents the difference between the carrying amount of a financial instrument at the beginning of the reporting period, or the transaction price if it was purchased in the current reporting period, and its settlement price.

(d) Income from InvIT

- i. Interest: It is recognized on the basis of a declaration for distribution to unitholders received from InvIT's.
- ii. Dividend: It is recognized on the basis of a declaration for distribution to unitholders received from InvIT's.
- iii. Distribution of Capital Returns: It is recognized on the basis of a declaration for distribution to unitholders received from InvIT's.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

B. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Current Tax

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred Tax

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized, or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

C. Leases

As a lessee

The Company assesses whether the contract is, or contains, a lease at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company leases some office premises.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date and is discounted using the Company's incremental borrowing rate.

For leases with the term of 12 month or less (short term leases) and low value leases, the company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

ROU assets are measured at their carrying amount at the commencement date and are discounted using the Company's incremental borrowing rate at the date of initial application. The ROU assets are subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

The lease liability is remeasured when there is a change in one of the following:

- the Company's estimate of the amount expected to be payable under a residual value guarantee, or
- the Company's assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the ROU asset or is recorded in the Statement of Profit and Loss if the carrying amount of the ROU asset has been reduced to nil.

D. Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, amount in current account with banks, deposits held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

E. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and, interest rate swaps and currency options; and embedded derivatives in the host contract.

Financial instruments also covers contracts to buy or sell a non-financial item that can be settled net in cash or another financial instrument, or by exchanging financial instruments, as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements.

Financial assets

(i) Initial recognition and measurement:

All financial assets except trade receivables, are recognised initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Trade receivables are initially recognised at transaction price. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

(ii) Classification and subsequent measurement:

The Company has applied Ind AS 109 and classifies its financial assets in the following measurement categories:

- Amortised Cost;
- Fair value through other comprehensive income (FVOCI); or
- Fair value through profit or loss (FVTPL).

1. Financial assets carried at amortised cost

A financial asset is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

2. Financial asset carried at fair value through Other Comprehensive Income (FVTOCI) :

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that represents solely payments of principal and interest on the principal amount outstanding. All financial assets which are not classified and measured at 'amortised cost' or 'FVTOCI' as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

3. Financial assets carried at fair value through Profit and Loss Account (FVTPL):

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Investments in Debt Securities, Mutual Funds, InviT, Unlisted Shares and Alternate Investment funds are measured at fair value through profit and loss (FVTPL)

(iii) Impairment

The Company recognizes impairment allowances using Expected Credit Losses (“ECL”) method on all the financial assets that are not measured at FVTPL:

ECL are probability-weighted estimate of credit losses. They are measured as follows:

- Financials assets that are not credit impaired – as the present value of all cash shortfalls that are possible within 12 months after the reporting date.
- Financials assets with significant increase in credit risk - as the present value of all cash shortfalls that result from all possible default events over the expected life of the financial assets.
- Financials assets that are credit impaired – as the difference between the gross carrying amount and the present value of estimated cash flows.

Financial assets are written off / fully provided for when there is no reasonable probability of recovering a financial asset in its entirety or a portion thereof.

However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in the Statement of Profit and Loss.

(iv) De-recognition

A financial asset is derecognised only when :

The Company has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

Financial liabilities

(i) Initial recognition and measurement

Financial liabilities are classified at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in Statement of Profit or loss.

(ii) Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss is measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

(iii) De-recognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments which are issued for cash are recorded at the proceeds received, net of direct issue costs. Equity instruments which are issued for consideration other than cash are recorded at fair value of the equity instrument.

F. Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

G. Property, Plant and Equipment

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition and installation of the assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro-rata basis on a Written Down Value Method over the estimated useful life of the assets. As disclosed in table below, based on technical evaluation done by management's expert, the estimated useful life of fixed assets of the Company is different from useful life prescribed in Schedule II of the Companies Act, 2013. Based on the nature of fixed assets used by the Company and past experience of its usage, the Company considers that the useful life for respective assets to be appropriate. Estimated useful lives of assets based on technical evaluation by the management are as follows:

Assets	Useful life
Right of use Asset	Over the primary lease period
Furniture & Fixtures	5 years
Office Equipment	5 years
Computer	3 years
Leasehold Improvement	Over the primary lease period

Derecognition

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

H. Intangible Assets

Measurement at recognition:

Intangible assets are recognized where it is probable that the future economic benefit attributable to the assets will flow to the Company and its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment, if any.

The Company amortizes intangible assets on a written down value basis over the three years commencing from the month in which the asset is first put to use. The Company provides pro-rata amortization from the day the asset is put to use.

Assets	Useful life
Computer software	3 years

Derecognition:

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in the statement of profit and loss when the asset is derecognized.

I. Impairment of Non-Financial Assets

At each reporting date, the Company assesses whether there is any indication based on internal/ external factors, that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount of asset is the higher of its fair value or value in use. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects the current market assessment of time value of money and the risks specific to it. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognised in the statement of profit and loss. All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An Impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the assets carrying amount would have been determined, net of depreciation or amortization, had no impairment loss been recognised.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

J. Provisions and Contingencies

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date.

Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Expected future operating losses are not provided for.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

K. Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The CODM's function is to allocate the resources of the Company and assess the performance of the operating segments of the Company.

L. Employee Benefits

Short-term obligations

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related services are rendered. The Company recognises the costs of bonus payments when it has a present obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made.

Share-based payment

The Employee Stock Option Scheme provides for the grant of options to acquire equity shares of the Company to its employees. The period of vesting and period of exercise are as specified within the schemes. The fair value at grant date of equity settled share-based payment options granted to employees is recognised as an employee benefit expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the options. The amount recognised as expense is based on the estimate of the number of options for which the related service conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of options that do meet the related service conditions at the vesting date. Such compensation cost is amortised over the vesting period of the respective tranches of such grant.

Post- employment obligations

Defined contribution plan:

Contribution paid/ payable to the recognized provident fund which is defined contribution scheme is charged to the Statement of profit and Loss in the period in which they occur.

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

Defined benefit plan:

Gratuity

Gratuity is post-employment benefit and is in the nature of defined benefit plan. The liability recognized in the balance sheet in respect of gratuity is the present value of defined benefit obligation at the balance sheet date together with the adjustments for unrecognized actuarial gain or losses and the past service costs. The defined benefit obligation is calculated at or near the balance sheet date by an independent actuary using the projected unit credit method. Actuarial gains and losses comprise experience adjustment and the effects of changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in balance sheet.

Accrued Leave

Compensated absences are provided based on actuarial valuation including actuarial gains/losses at balance sheet date and are recognised in statement of profit and loss. The actuarial valuation has been carried out using the Projected Unit Credit Method. The leave policy permits the eligible employees to carry forward a portion of the unutilized accrued compensated absences, and utilize it in future service periods. However company does not en-cash or compensation on separation

M. Earnings per Share

Basic earnings per share

Basic earnings per share is calculated by dividing the net profit for the period (excluding other comprehensive income) attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year.

Diluted earnings per share

Diluted earnings per share is computed by dividing the net profit for the period attributable to equity shareholders by the weighted average number of shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

N. Events after Reporting Date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

O. Key Accounting Estimates and Judgements

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on ongoing basis. Any changes to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect on the amounts recognized in the financial statements are included in the following notes:

1. Recognition of Deferred tax assets:

Company is having net deferred tax assets comprising of deductible temporary differences, brought forward losses and unabsorbed depreciation under tax laws. However, in the absence of reasonable

Trust Asset Management Private Limited
Summary of material accounting policy information and other explanatory information as at and for the year ended 31 March 2025

certainty as to realization of deferred tax assets (DTA), DTA has not been recognised on accumulated losses and unabsorbed depreciation. The assessment of the reasonable certainty with regard to the realization of the tax benefit involves assumptions based on the history of the entity and budgeted data for the future. Deferred tax assets on temporary taxable differences has been recognized to the extent of deferred tax liabilities.

2. Defined benefit plans:

The cost of defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

3. Property, plant and equipment and Intangible assets:

Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation and amortization to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

4. Fair Valuation of employee share options:

The fair valuation of the employee share options is based on the Black-Scholes model used for valuation of options which requires a number of assumptions to determine the model inputs. These include the expected volatility of Company's stock and employee exercise behaviour which are based on historical data as well as expectations of future developments over the term of the option. As stock-based compensation expense is based on awards ultimately expected to vest. Management's estimate of exercise is based on historical experience but actual exercise could differ materially as a result of voluntary employee actions and involuntary actions which would result in significant change in our stock-based compensation expense amounts in the future.

P. Recent accounting developments:

New standards and amendments

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA has notified below new standards / amendments which were effective from 1 April, 2024.

Amendment to Ind AS 116 – Lease Liability in a sale and leaseback

The amendment requires an entity to recognise lease liability including variable lease payments which are not linked to index or a rate in a way it does not result into gain on Right of use asset it retains.

Introduction of Ind AS 117

MCA notified Ind AS 117, a comprehensive standard that prescribe, recognition, measurement and disclosure requirements to avoid diversities in practice for accounting insurance contracts and it applies to all companies i.e., to all "insurance contracts" regardless of the issuer. However, Ind AS 117 is not applicable to the entities which are insurance companies registered with IRDAI.

The Company has reviewed the new pronouncement and based on its evaluation has determines that these amendments do not have an impact on the financial statements.

(x) Maturity analysis of the benefit payments

Particulars	As at 31 March 2025	As at 31 March 2024
Projected benefits payable in future years from the date of reporting		
1st following year	4.19	5.70
2nd following year	5.15	5.25
3rd following year	5.63	5.57
4th following year	5.94	5.93
5th following year	23.74	6.23
Sum of years 6 to 10	26.15	39.15
The weighted average duration of the projected benefit obligation	8.63	8.63

(xi) Sensitivity analysis

Particulars	As at 31 March 2025	As at 31 March 2024
Impact of increase/decrease in 50 bps on DBO		
Discount rate		
Increase	68.43 -3.29%	57.09 -2.96%
Decrease	73.23 3.48%	60.67 3.12%
Salary growth rate		
Increase	71.89 1.59%	59.86 1.74%
Decrease	68.81 -2.76%	57.94 -1.52%

The sensitivity analysis has been determined based on reasonably possible changes of the respective assumptions occurring at

(xii) Risks associated with defined benefit plan

(i) Interest rate risk

A fall in the discount rate which is linked to the G-Sec rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

(ii) Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

(iii) Asset Liability Matching (ALM) risk

The plan faces the ALM risk as to the matching cash flow.

(iv) Mortality Risk

Since the benefits under the plan is not payable for life time and are payable till retirement age only, the plan does not have any longevity risk.

(xiii) During the year, there were no plan amendments, curtailments and settlements.

(b) Accumulated Compensated Absences

The Company provides for accumulated compensated absences as at the Balance Sheet date on the basis of an actuarial valuation. The Company recognised Rs. 13.11 Lakhs (Previous year : Rs. 12.35 Lakhs) for Compensated Absences in the Statement of Profit and Loss.

Note 30 Tax expense

(a) Amounts recognized in statement of profit and loss

(in ₹ lakhs)

Note 32 Financial instruments (contd..)

B Fair value hierarchy

As per Ind AS 107, 'Financial Instruments: Disclosures', the fair values of the financial assets or financial liabilities are defined as the price that would be received on sale of asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs.

The hierarchy used is as follows :

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

C Valuation techniques used to determine fair value

Significant valuation techniques used to valued financial instruments includes:

1. The fair values for investment in mutual funds and REITs are based on their respective NAVs and quoted prices respectively. Hence investment in mutual funds and REITs have been categorised on Level 1.
2. The investment in bonds are based on discounted cash flow method using observable market data and recent transaction available in active market, hence investment in bonds categorised on Level 2.
3. Fair value for investment in unlisted equity instrument are determined using valuation model, hence investment in equity instruments have been categorised on Level 3.
4. Fair value for investment in alternate investment fund are based on respective NAVs declared by fund house, hence investment in alternate investment fund have been categorised on Level 2.

Note 33 Financial Risk Management

Liquidity risk:

Liquidity risk / funding risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises from mismatches in the timing of cash flows. The company's approach to managing liquidity is to ensure that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses.

The table below shows an analysis of assets and liabilities analysed according to when they are expected to be recovered or settled.

(in ₹ lakhs)

Total liabilities	892.50	646.70	1,539.20	700.50	810.17	1,510.66

Note 33 Financial Risk Management (contd..)**Credit risk:**

Credit risk is the risk of financial loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's other receivables, cash and cash equivalents, and financial assets measured at amortised cost.

The maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented in the financial statements. The Company's major classes of financial assets are cash and cash equivalents, investments measured at FVTPL and security deposits.

The Company continuously monitors all financial assets subject to Expected Credit Losses (ECL's). In order to determine whether an instrument is subject to 12 month ECL or life time ECL, the Company assesses whether there has been a significant increase in credit risk or the asset has become credit impaired since initial recognition.

ECL is a probability weighted estimate of credit losses. It is measured as the present value of cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with contract and the cash flows that the Company expects to receive).

The Company has two types of financial assets that are subject to the expected credit loss:

- Cash and cash equivalent
- Trade and other receivables

Trade and other Receivables :

Exposure to receivables outstanding as at end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Historic trends of collection from counterparties on timely basis reflects low level of credit risk.

Cash and Cash Equivalent :-

Company holds Cash Balance and bank balance in current account of Rs. 151.06 Lakhs as at 31 March 2025 (31 March 2024 : Rs. 37.08 Lakhs). The cash and cash equivalent are held with banks with sound credit ratings

Market risk:

Market risk is the risk that the fair value or future Cash flows of a financial instrument will fluctuate because of changes in market prices. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(i) Interest rate risk:

The Company is exposed to Interest risk if the fair value or future cash flows of its financial instruments will fluctuate as a result of changes in market interest rates. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates.

The Company's interest rate risk arises from interest bearing deposits with bank and investment in debt securities. Such instruments expose the Company to fair value interest rate risk. Management believes that the interest rate risk attached to this financial assets are not significant due to the nature of the financial assets held by Company.

(ii) Market price risks

The Company is exposed to market price risk, which arises from FVTPL investments. The management monitors the proportion of these investments in its investment portfolio. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the appropriate authority.
